- **Soft Skills :** Critical Problem Solving, Excellent Communication, Team Player.

PROJECT

Netflix Clone (*React.js*) | [DEMO LINK](#)

February 2025

- Developed a **fully responsive and interactive** Netflix Clone using **React.js, Firebase, JavaScript**.
- Implemented **state management** with React Hooks for seamless navigation and efficient UI updates.
- Integrated **Firestore Authentication** for secure user login/signup using email and password.
- Designed a **dynamic UI** with a scroll-responsive navbar, interactive hero section, and dropdown menus.
- **Optimized performance** with lazy loading, CSS animations, and efficient rendering techniques.

Simple ATM Machine (JDBC Connectivity) (*Java, MySQL*) | [LINK](#)

December 2024

- Built a **Java-based ATM system** using **JDBC** to simulate banking transactions.
- Developed **functionalities** for checking balance, withdrawals, and deposits.
- Ensured **secure and efficient** database interaction with **MySQL** for real-time transactions.

Global Hospital & Blood Bank Management System | [LINK](#)

July 2023

- Developed a **web application** to manage hospital and blood bank operations.
- Designed **user-friendly interfaces** for seamless navigation.
- Implemented **secure database management** for patient records, donor details, and blood inventory.
- **Tested & debugged** the system for **cross-platform compatibility** and performance.

CERTIFICATION

JBDC CONNECTIVITY | [LINK](#)

2nd – December - 2024

- Demonstrated skills in establishing database connections and executing SQL queries using Java Database Connectivity(JDBC)

IT Specialist (Cybersecurity) | [LINK](#)

31th – May - 2024

- Certified in cybersecurity with proven expertise in network security, risk management, ethical hacking, and cybersecurity tools

Entrepreneurship: Laying the Foundation | [LINK](#)

27th – May - 2024

- Developed skills in innovation, business planning, problem-solving, and entrepreneurial strategies.

Agile Scrum in Practice | [LINK](#)

27th – November - 2024

- Acquired skills in Agile principles, Scrum framework, sprint planning, and effective team collaboration.
